### **Liquidity Ratios Disclosures - 31 December 2025**

In August 2018, the Central Bank of Bahrain issued the regulations on the implementation of the Net Stable Funding Ratio (NSFR) in the Liquidity Module to be applied to banks operating in Bahrain effective from 31 December 2019. The objective of the Net Stable Funding Ratio (NSFR) is to promote the resilience of bank's liquidity risk profiles and to incentivize a more resilient banking sector over a longer time horizon. The NSFR will require banks to maintain a stable funding profile in relation to the composition of their assets and off-balance sheet activities. A sustainable funding structure is intended to reduce the likelihood that disruptions to a bank's regular sources of funding will erode its liquidity position in a way that would increase the risk of its failure and potentially lead to broader systemic stress. The NSFR limits over-reliance on short-term wholesale funding, encourages better assessment of funding risk across all on-balance sheet and off-balance sheet items, and promotes funding stability. As per CBB Disclosure requirements, consolidated NSFR is to be published on a quarterly basis.

NSFR is defined as the amount of available stable funding relative to the amount of required stable funding. This ratio must be equal to at least 100 percent.

'Available Stable Funding' is defined as the portion of capital and liabilities expected to be reliable which is determined by various factor weights according to the nature and maturity of liabilities with liabilities having maturity of 1 year or more receiving 100% weight. 'Required Stable Funding' is defined as the portion of on balance sheet and off balance sheet exposures which requires to be funded on an ongoing basis. The amount of such stable funding required is a function of the liquidity characteristics and residual maturities of the various assets held.

KFH maintained comfortable stable funding buffers on 31 December 2025. Available Stable Funding at KFH Bahrain was USD 17.7 billion against USD 15.1 billion of Required Stable Funding, resulting in a consolidated NSFR of 117.1%. NSFR as on 30 September 2025 was 116.8%.

The main drivers behind the Available Stable Funding are the adequate capital base, sizeable retail deposit base, and funding from non-financial companies and long term funding from institutional clients. The capital base formed around 32.7%, retail deposits (including deposits from small-sized business customers) formed 23.3%, and wholesale funding formed 43.2% of the total Available Stable Funding, after applying the relevant weights.

The Required Stable Funding primarily comprised lending to corporates, retail clients and financial institutions. The stock of High-Quality Liquid Assets (HQLA), which includes cash and reserve balances with the CBB and other central banks, government sukuk issuances in domestic and foreign currencies as well as sukuk issuances by highly-rated companies was USD 9.9 billion. Due to their high quality and liquid characteristic, these assets require no or low amount of stable funding. Accordingly, the HQLA constituted only 12.6% of the Required Stable Funding after applying the relevant weights. Performing financing to both non-financial and financial institutions constituted 57.1% of the total RSF after applying the relevant weights while Non-HQLA investments contributed 13.0% of the total RSF. Other assets and Contingent funding obligations, such as committed credit facilities, guarantees and letters of credit (LCs) constituted the remaining 17.7% of the Required Stable Funding.

The NSFR is supplemented by Liquidity Coverage Ratio (LCR) which measures the Bank's availability of HQLA to support short term liquidity stress situation as defined in the CBB rules. As of 31 December 2025, the Bank's consolidated LCR was 381.35% against a minimum limit of 100%.

Quantitative information on Net stable Funding Ratio is provided in the table below.

**NSFR Common Disclosure Template**

As at 31-December-25

No.	Item	Unweighted Values (i.e. before applying relevant factors)				Total weighted value in USD ('000)
		No specified maturity	Less than 6 months	More than 6 months and less than one year	Over one year	
<b>Available Stable Funding (ASF):</b>						
1	Capital					
2	Regulatory Capital	5,542,403			238,924	5,781,327
3	Other Capital Instruments				-	-
4	Retail deposits and deposits from small business customers:					
5	Stable deposits		1,454,510	-	-	1,381,785
6	Less stable deposits		2,546,133	431,348	46,423	2,726,156
7	Wholesale funding:					
8	Operational deposits		4,032			3,516
9	Other wholesale funding		9,781,297	3,550,422	2,792,897	7,624,871
10	Other liabilities:					
11	NSFR derivative liabilities	5,630				-
12	All other liabilities not included in the above categories		777,006	94,859	149,473	149,472
13	<b>Total ASF (2+3+5+6+8+9+11+12)</b>					<b>17,667,127</b>
<b>Required Stable Funding (RSF):</b>						
14	Total NSFR high-quality liquid assets (HQLA)					1,898,654
15	Deposits held at other financial institutions for operational purposes					
16	Performing financing and securities:					
17	Performing financing to financial institutions secured by Level 1 HQLA					
18	Performing financing to financial institutions secured by non-level 1 HQLA and unsecured performing financing to financial institutions	-	2,259,345	-	73,073	411,975
19	Performing financing to non-financial corporate clients, financing to retail and small business customers, and financing to sovereigns, central banks and PSEs, of which:	-	3,555,482	1,331,256	5,826,006	7,378,141
20	- With a risk weight of less than or equal to 35% as per the CBB Capital Adequacy Ratio guidelines				86,665	56,332
21	Performing residential mortgages, of which:					
22	With a risk weight of less than or equal to 35% under the CBB Capital Adequacy Ratio Guidelines				1,187,061	771,589
23	Securities that are not in default and do not qualify as HQLA, including exchange-traded equities		39,145	50,609	2,242,492	1,957,876
24	Other assets:					
25	Physical traded commodities, including gold					
26	Assets posted as initial margin for derivative contracts and contributions to default funds of CCPs	165,525				140,696
27	NSFR derivative assets	185,650				185,650
28	NSFR derivative liabilities before deduction of variation margin posted	17,773				17,773
29	All other assets not included in the above categories	2,087,962	-	-	-	2,087,962
